Applications

Call Block

[← BACK](#)[⚡ SAVE](#)

Block calls from a number. Either select a number from the list above or enter the number, name and enable below.

Direction	Inbound	Select the direction of the calls to block.
Extension	All	Select the extension to be affected.
Name		Enter the Caller ID Name to block.
Number		Enter the Country Code and Caller ID Number to block.
Action	Reject	Set an action for calls from this number.
Enabled	True	Set to true to enable call blocking for this number.
Description		Enter the description.

Enhanced call-blocking introduced in Master branch 2.5.0: Call-blocking does an exact match on the inbound caller-id number by default. This behaviour can be changed to use SQL “like” comparison or regex based comparison by adding the following variable to the Default Settings:
